

From Cabins to Castles... Realize Your Dream

THE RIDGEWAY

Designed for a site where the views are to the side instead of out the back, this plan has it all. The main floor includes an open kitchen with nook, dining and great room as well as a master suite and large laundry / mud room. Two or three additional bedrooms and two full baths as well as an exercise room, wine room and large rec room are in the lower level walk-out. A large versatile loft on the upper level completes the floor plans. The vaulted ceilings, large expanses of glass and open flowing floor plan allows the home to take advantage of views as well as providing a bright, open living environment.

Upper Level : 403 sq. ft. (+/-)
