

Thank you for your interest in **Honka Log Homes!**

Honka has supplied over 70,000 log homes worldwide in the last 50 years, establishing the company as the world leader in log home technology and quality. As the regional distributor for the Honka Log Home product line, we understand the confusion that can exist when trying to choose the correct log home design and supplier, and we therefore have dedicated our services to simplifying the process.

Our company, Atrium Log Homes, chose to take on the Honka product line after considerable research, including a visit to their manufacturing plants in Finland that revealed them to be a true industry leader. Like the 3000 to 4000 people each year who choose to buy the Honka product we found some of the key advantages of Honka to include:

- *The quality and beauty of Finnish Polar Pine.*
- *Unlimited design capabilities from log cabins to log castles.*
- *Log assembly & sealing technology that maximizes home energy efficiency.*
- *Doors and windows of superior design and construction for functionality, energy efficiency, and durability.*
- *Manufacturing efficiency and exceptional design of the log system reducing erection costs and construction delays.*
- *Product value and affordability.*

To assist our clients in this important process, we complement the quality of the Honka product line with value added services. Some of these services include:

- *Site surveys and Access Studies*
- *Well, septic, & building permits*
- *Value added Design Concepts*
- *Architect & Builder Selection*
- *Budgeting*
- *Construction loans & permanent financing*

We have a customized approach to log home design and building, so customization of our plans or starting with a unique plan that fits your site, design preferences, functions and budget does not add any additional cost to the Honka components. Factory direct purchase from Honka allows us

to be competitive with "kit" pricing. Most importantly, we are dedicated to supporting you through the entire process in building your dream log home. Once we have a better understanding of your needs we'll be able to provide you more detail and/or concepts.

Please take a tour of our website www.AtriumLogHomes.com to gain additional insight on the range of products and services that we offer. We thank you for your interest in **Honka's** world leading log home technology. Please let us know how we can be of assistance in building your dream log home.

Looking forward to speaking with you.

Sincerely,

Elizabeth Nelson
